Senior Full Stack and React Native Developer with 12+ years of experience building scalable web and mobile applications across fintech, e-commerce, and healthcare industries. Proven track record delivering production-grade features for high-profile clients including Maya Philippines and PayMongo. Adept at leading development teams, conducting thorough code reviews, and modernizing legacy systems using TypeScript, React, Node.js, and React Native.

Experience

Full Stack Developer at Kimia.ai (April 2025 - May 2026 / Contractor)

- Built and maintained core features for the [Kimia.ai](#) Chemical Intelligence Platform, including a product dashboard, PDF report generator, and AI-powered chat UI
- Identified and proposed platform improvements based on user feedback, directly influencing the product roadmap
- Migrated legacy .NET endpoints to Next.js, modernizing the backend API layer and improving maintainability
- Provided responsive technical support for customer-facing issues, ensuring consistent platform reliability

Senior React Native Developer at EscoSoft Solutions (December 2024 - March 2025 / Contractor)

- Delivered DapTime, a Time Tracking and Schedule Management solution for enterprise clients, from Figma to production

- Translated designs into a polished, cross-platform React Native application with pixel-perfect fidelity on iOS and Android
- Developed critical product features including employee onboarding flows and schedule management workflows
- Enhanced app performance and UX, contributing to the published release on Google Play

Senior React Developer at Chord Commerce (August 2024 - November 2024 / Contractor)

- Built a reusable React component library for the Caraway Home e-commerce platform using Next.js and Stylex
- Shipped multiple customer-facing pages (Care & Cleaning, FAQs, Blog) and interactive UI components including AddOns and History Slider
- Maintained code quality across the team by conducting structured code reviews on pull requests

Senior React Developer at Redpoint Global (April 2022 - July 2024)

- Maintained and extended a large-scale legacy React application, continuously shipping new features while reducing technical debt
- Engineered a high-performance Export/Import feature for the Master Data Management project, successfully tested at up to 15 million records
- Strengthened codebase reliability through unit test implementation and consistent pull request reviews

Senior React Native Developer at Clark Outsourcing - Sparkshare (July 2021 - March 2022)

- Designed and built the mobile application architecture for Sparkshare, an EV charging station marketplace platform
- Planned and executed feature development end-to-end in close collaboration with product stakeholders
- Delivered a fully cross-platform application compatible with both iOS and Android from the ground up

Senior Full Stack Developer at CynderTech Corp. (December 2014 - July 2021)

- Led development across 10+ projects for SME and enterprise clients spanning landscaping, e-commerce, and healthcare sectors
- Mentored junior developers across multiple teams, fostering a culture of code quality, collaboration, and continuous learning
- Drove technology R&D initiatives that improved and expanded the company's service offerings
- Delivered key payment integrations for Maya Philippines (Maya Mall, PlayMaya, PayMaya Donations) and WooCommerce/Magento2 plugins for PayMongo
- Architected and built complex enterprise systems including an ERP, Fleet Management platform, and an Electronic Medical Record system with e-Prescriptions
- Recognized for leadership capabilities and offered a management position within three years

WordPress Developer at HTMLGuys (April 2014 - November 2014)

- Converted PSD mockups into pixel-perfect, cross-browser-compatible WordPress and PrestaShop templates

PHP Developer at WCube Solutions (Sept 2013 - March 2014)

- Developed a fully responsive, cross-browser-compatible Joomla website from a provided style guide PDF

Assistant Instructor at AMA Computer College - Fairview (June 2013 - August 2013)

- Instructed first-year students in Web Development, Microsoft Office Proficiency, and Discrete Structures
